

Machine Control 35W Repeater Kit:

Extend Your RTK Network with Ease

LONG-RANGE WIRELESS CONNECTIVITY FOR RTK & GNSS MACHINE CONTROL

The Machine Control 35W Repeater Kit (SK-35R) provides reliable, long-range wireless communication for precision machine control and GNSS systems. Built around the SATEL-EASy Pro+ 35W Radio, this kit is preassembled to reduce setup time and simplify deployment in the field. Pre-configured options available with a valid FCC call sign, or similar.

Whether you're supporting construction, agriculture, or surveying operations, the SK-35R helps expand your RTK network's coverage – without sacrificing performance or durability.

RADIO

YM6823

SATELLINE-EASy Pro+ 35W Radio

YP35PB

Radio Bag, padded (Free of charge with complete kit, additional charge if purchased separately)

ANTENNA

YAS5MW

Whip Antenna, 450-470MHz, 5 dBi, NMO connector

YPTMAM

Pole Mount Adaptor, NMO/TNC, 5/8-11 mounting thread

YCAK08

Antenna Cable, 10 ft, .195 in, TNC-Male

K-YKIT-AK

Tripod with Telescoping Mast & Bag

POWER

SBLFP46

Base Station Battery, 12V/46Ah Lithium Iron Phosphate (LFP)

YP33BB

Battery Bag

SPCLFP

Lithium Battery Charger

SCP35P-SAE

Power Cable Set, Pro+ to SAE & Fused SAE cable with battery leads

NEED FCC LICENSING SERVICE?

Bundle SK-35R with our FCC Licensing Service and save on licensing fees. We'll handle the process so you can stay focused on your projects.
